

# PALOMINO

## Clone RLM6

In France, Listan is officially listed in the "Catalogue of vine varieties" on the A list and classified. This variety is also listed in the catalogues of other Member States of the European Union: Cyprus, Portugal and Spain.

MORE INFO

## Features

- Listan is vigorous, very productive, susceptible to browning and must be pruned short.
- This variety is a little susceptible to powdery mildew and grey rot.

## Technological potential

• Listan's bunches are very large and the berries are medium to large in size. Listan has a low sugar potential and the acidity drops quickly and sharply at maturity. Wines produced are neutral and sensitive to oxidation.
